

sha512Param

```
graph BT; hmacsha512Param[hmacsha512Param] -.->|sparam| sha512Param[sha512Param];
```

The diagram illustrates a relationship between two parameter types. At the bottom is a gray box labeled 'hmacsha512Param'. A dashed purple arrow points upwards from this box to a white box at the top labeled 'sha512Param'. The arrow is labeled 'sparam' in the middle.
