

Lateef - Documentation

Thank you for your interest in the Lateef font. Lateef includes near-complete support for Unicode 13.0 Arabic ranges (excluding the Arabic Presentation Forms blocks, which are not recommended for normal use).

This documentation is a set of HTML pages that can be viewed in any modern web browser. PDF versions of these pages are also provided. This content, plus download links and a contact form, are available from the [Lateef site](#).

- [About](#) — Information about this project and SIL International
- [Resources](#) — Help with installation and use
- [FAQ](#) — Common questions and answers
- [Design](#) — History and background of the design
- [Character set support](#) — Details of Unicode characters that are supported
- [Type Sample](#) — Type sample demonstrating all the characters in this font
- [Font features](#) — Using smart font features
- [Rendering the Allah ligature](#) — Special rules for rendering the Allah ligature
- [Support](#) — How to get additional support
- [Developer information](#) — How to modify and build the fonts
- [Versions](#) — Sources for alternate versions
- [Version history](#) — Complete version history
- [Announcement](#) — Source for News announcement

Additional information is also provided in other project files: [README.txt](#), [OFL.txt](#), [OFL-FAQ.txt](#), and [FONTLOG.txt](#).
